

Biography

DALE E. WALLIS
Vice President
Chief Financial Officer and Treasurer

Dale Wallis is vice president, chief financial officer, and treasurer of The Aerospace Corporation. Wallis joined Aerospace in 1996 and served in a variety of finance roles prior to being elected to his current position, which he has held since January 1, 2001. Wallis is responsible for finance, budgeting, contract administration, procurement, treasury, and risk management.

Before joining Aerospace, Wallis was vice president of administration and chief financial officer for COMPS Infosystems, Inc., a real estate information services company. Before that he was director of finance for Mycogen Corporation, a publicly held, international, agricultural biotech company. In these positions Wallis was responsible for finance, tax, human resources, information technology, and merger and acquisition activities.

Prior to his experience at COMPS and Mycogen, Wallis was in senior management at CPA firms Ernst & Young and KPMG. He also served as a partner in a local CPA firm in Stillwater, Oklahoma, and held internal audit positions at American Airlines.

Wallis is on the adjunct faculty at the Leventhal School of Accounting at the University of Southern California and has held faculty positions at several other universities throughout his career.

Affiliations

Wallis is active in Financial Executives International (FEI), where he has served on the board of directors, is past chair of the Committee on Government Business, and is a member of the

Committee on Benefit Financing. He also is a member of the American Institute of CPAs. In addition, Wallis serves on the Dean's Advisory Council for the College of Business at Loyola Marymount University in Los Angeles, and on the Dean's Advisory Board for the College of Business at California State University, Dominguez Hills. Over the years, Wallis has served on the boards of many civic and charitable organizations. He was twice his party's nominee for state auditor in Oklahoma.

Educational Background

Wallis holds bachelor's and master's of science degrees in accounting from Oklahoma State University and has pursued post-graduate studies at the University of Oklahoma.

The Aerospace Corporation is an independent, nonprofit organization dedicated to the objective application of science and technology toward the solution of critical issues affecting the nation's space program.
